while it is difficult to establish a close relationship between language form and the racial or cultural characteristics of its speakers an intimate relationship does exist between culture and language content the study of language content needs no special justification since the written records of antiquity are our most valuable source of information concerning the peoples and civilizations which form the object of historical investigation but language as a formal structure like the tools and institutions of a society represents a kind of transmitted organism and as such falls into the category of data which can be ordered in typologically related sequences thus for the historian who is interested primarily in tracing interacting continuities the study of the history and development of a language apart from its use as a vehicle for oral and written traditions provides useful and sometimes unique evidence of otherwise undiscernible ethnic and cultural affiliations

with the permission of a north carolina court more than 150 hours of courtroom speech were recorded for this study these tapes provided a rich archive for a variety of different types of inquiry including the ethnography of courtroom speech and social psychological experiments focused on effects of different modes of presenting information in courts of law four sets of linguistic variables and related experimental studies have constituted a major portion of the research 1 powerful versus powerless speech 2 hypercorrect versus formal speech 3 narrative versus fragmented testimony and 4 simultaneous speech by witnesses and lawyers all four sets of studies focus on the central question of importance of form over content of testimony

sverker johansson has written an unusual book on language origins with its emphasis on empirical evidence rather than theory building this is a book for the student or researcher who prefers solid data and well supported conclusions over

speculative scenarios much that has been written on the origins of language is characterized by hypothesizing largely unconstrained by evidence but empirical data do exist and the purpose of this book is to integrate and review the available evidence from all relevant disciplines not only linguistics but also e g neurology primatology paleoanthropology and evolutionary biology the evidence is then used to constrain the multitude of scenarios for language origins demonstrating that many popular hypotheses are untenable among the issues covered 1 human evolutionary history 2 anatomical prerequisites for language 3 animal communication and ape language 4 mind and language 5 the role of gesture 6 innateness 7 selective advantage of language 8 proto language
