questo lavoro riassume e presenta i risultati di tre anni di ricerche condotte nei territori dell'Appennino Tosco Emiliano con particolare attenzione per le zone comprese entro i limiti della provincia di Reggio Emilia. L'oggetto principale dell'indagine sono le architetture domestiche medievali tanto quelle ancora conservate in elevato quanto quelle emerse nel corso delle campagne di scavo archeologico da quelle più risalenti nel tempo fino alla svolta tardomedievale. L'attenzione è stata rivolta non solo a uno studio tipologico dei modelli architettonici e alla loro evoluzione ma anche alla comprensione del potenziale bacino di informazioni che questo particolare tipo di fonte rappresenta per la storia sociale economica insediativa e culturale del territorio. Si tratta in sostanza di uno studio di archeologia dell'architettura che non intende limitarsi ai temi classici bensì si propone come punto di incontro tra l'analisi degli alzati e l'archeologia del paesaggio attraverso lo studio intrecciato tra testimonianze archeologiche e fonti scritte. Si sono messe in luce alcune peculiarità insediative proprie dell'Appennino Reggiano derivanti dagli eventi che hanno plasmato le comunità umane che lo hanno abitato nel corso dei secoli medievali. L'estensione dei metodi propri dell'archeologia degli alzati già abbondantemente impiegati nello studio di chiese e castelli alle strutture cosiddette minori del paesaggio architettonico ha consentito di comprendere con maggiore chiarezza le relazioni e le strutture sociali che si vennero a determinare di volta in volta a fronte dei mutamenti degli assetti politici del territorio.

following the earthquake in Abruzzi region in April 2009 the European Union Solidarity Fund co-financed with the amount of 494 million euro the emergency assistance to the population and the construction of temporary houses and schools. The Court analysed the relevance and cost of the operations and in particular of the case project it concludes that the EUSF Regulation did not envisage solutions such as the case project which erected permanent houses in order to provide temporary accommodation to the earthquake affected population. Furthermore the Court found that these houses responded to many immediate needs of the population although with insufficient capacity and that there were shortcomings in the planning and in ensuring economy in the implementation of the project. p. 4 of cover
